## **Procedure Scheduled: CARDIAC CATHETERIZATION**

**About your procedure:** Please do not EAT or DRINK ANYTHING after midnight before your procedure. You may take prescribed medications with sips of water the day of your procedure. Ask your physician about how to take diabetic medications or insulin the day of your procedure. Bring a list of current medications with you and alert the staff about any allergies you may have. You will need to lie flat on your back for 4 to 6 hours after the procedure. Expect to be at Memorial a total of 10 to 12 hours that day. You will need to arrange for a ride home after the test.

**How to find us:** Free valet parking is available for patients at the Main Entrance, or you may park in the Bartlett Street Parking Ramp (see map). Cardiology Services will validate your parking stub. When you arrive at Memorial, you must register for your procedure in Admitting, located in the Main Entrance area of the hospital to the rear of the Information Desk (see maps). From there, you will be directed to Cardiology Services. If you have any questions, please ask the Main Entrance Information Desk. If you need any assistance regarding scheduling, please call 647-7700.
