News Brief

Dr. Binod Balakrishnan, a physician at Memorial Medical Group's Navarre Pediatric Group, has been selected as a 2010 Summit Award winner through the Centene Foundation for Quality Healthcare (CFQH). CFQH supports proactive and innovative strategies that improve the quality of health care for low-income individuals and families.

Award winners are selected annually based on Healthcare Effectiveness Data and Information Set (HEDIS) results and quality of care. Each year only three providers out of more than 1,000 are awarded this honor in the state of Indiana.
