Kellie Porter Named Vice President of Memorial Health Foundation

Kellie Porter has been named Vice President of Memorial Health Foundation, the fundraising arm of Memorial Health System. Her role will include fund development and management, and ongoing support of community development initiatives. She will begin on, or around, September 1.

A South Bend native, Ms. Porter completed her undergraduate work and received her master's degree in business administration from the University of Notre Dame.

Most recently, she served as Senior Donor Relations Officer at Cincinnati Children's Hospital Medical Center where she worked extensively with leadership donors and managed the Department of Development's partnerships with six major divisions. She also served as Senior Development Officer at Children's Healthcare of Atlanta, where she raised over \$4 million for the "One to Grow On" campaign.

Ms. Porter served as Co-founder and Vice President of Pro-Med Staffing, Inc. in Seattle, Washington, where she and her business partner grew the company to more than \$6 million in annual revenue and more than 70 employees. She also served as a Major Gifts Officer at the University of Notre Dame, where she developed a new territory for the university's "Generations" campaign.

In addition to her professional achievements, Ms. Porter stays actively involved in her community, and has volunteered with the Notre Dame clubs of Atlanta and Cincinnati, Atlanta Community ToolBank, The Atlanta Women's Foundation Healthcare Grant-Making Committee, and with the Leukemia and Lymphoma Society "Team in Training" as a fundraiser, marathon runner and mentor, among others.

"Kellie did a great job during a rigorous interview process, which included many board members and administrative staff," says Philip A. Newbold, President & CEO of Memorial Health System. "Her passion, enthusiasm and great experiences really shined through and we are excited about having such a talented executive join our organization."
