***Free Prostate Screenings Provided by Memorial Hospital
and da Vinci Surgical System***

**Monday, Sept. 13
Memorial Home Care
3355 Douglas Rd.
Noon - 7 p.m.**

In honor of National Prostate Health Month, Memorial Hospital and da Vinci[®] Surgical System will offer free prostate screenings for men age 40 and older on Monday, Sept. 13 from noon to 7 p.m. at Memorial Home Care, 3355 Douglas Road in South Bend. No appointments necessary, and physicians will be available to answer questions.

The public is also invited to “test drive” the da Vinci[®] robot. The da Vinci Robotic Surgical System is being used by an increasing number of surgeons for prostatectomy and other urologic procedures. It is a minimally invasive approach, using the latest in surgical and robotics technologies and is ideal for delicate urologic surgery.

Some of the benefits to patients who choose the da Vinci[®] Surgical System can include: less pain, fewer complications, less scarring, shorter hospital stays, less blood loss, and a faster return to normal activities.

For more information on prostate health, or for a referral to a physician who specializes in the use of the da Vinci Surgical System, please call The Health Professionals at 574-647-6800.
